Technical Data	
Operating temperature	-10 to +40°C (+14 to +104°F)
Mass	Sleeves - 500 g (1.1 lbs); boot covers (shin guards with nastop) - 350 g (0.77 lbs)
Length	Sleeves - 47 cm (xx inches); boot covers (shin guards with nastop) - 20.3 cm (8 inches)
Country of origin	India
Certificates	CE UK CA CE, EN ISO 11611:2015, class 2A1; UKCA 2019 S1696 Annex 35 Reg 38.

Approvals - EN ISO 11611:2015, Class 2A1

Purpose:
 Class 2 - recommended for manual welding techniques with high spatter and droplet content, e.g. MMA welding (alkaline or cellulosic electrode), MAG welding (CO2 or mixed gas), MIG welding (high current), automatic arc welding, plasma cutting, gouging, oxyfuel, thermal spraying for machine operation, e.g. in confined spaces, when welding/cutting at heights or in confined positions. The clothing is designed to protect against flames, molten metal, splashes, thermal radiation and brief accidental contact with electricity.

Order data

Welding sleeves, one size fits all (x2)	0700500543
Leather shin guards, one size fits all (x2)	0700500542
